

Custom Crystal Reports
Report Catalogue for Sage 100 ERP
(formerly MAS 90 and 200)

Report Title: Customer Sales History Graph

Description: A graph showing the Customer Sales for the current and prior two years for the selected Customers.

Module: Accounts Receivable

Database Files: CustomerSalesHistory

Issue: You want to look at customer sales trends for the current and last two years. The standard reports only give you the current and prior year and it's hard to tell what's going on from month to month and year to year.

Resolution: "A picture's worth a thousand words!" Add this report to your Accounts Receivable Custom Menu and see a graphical presentation of Customer Sales by month for the current and last two years.

Installation: Once your payment is processed, the report template is sent to you via email. You may elect to install the template yourself or the staff at Conner Ash P.C. will be happy to assist you for a small additional charge.

Customization: Additional customization is available at our current hourly rate.

Contact: To place an order or if you need additional information, please contact either Suzanne Watson or Sue Deters at (314) 205-2510.
