

Custom Crystal Reports
Report Catalogue for Sage 100 ERP
(formerly MAS 90 and 200)

Report Title: Open Orders By Item

Description: This report is patterned after the Open Order By Item report on the Sales Order Reports Menu. The Customer Name is replaced by the BillTo and ShipTo Name and the Extended Description replaces the Item Code Description when there is an Extended Description. This report prints in landscape orientation.

Module: Sales Order

Database Files: ExtendedDescription, Item, SalesOrderDetail, SalesOrderHeader

Issue: You like the Open Orders By Item report but you need to know the BillTo Name and ShipTo Name in place of the Customer Name OR you use Extended Descriptions and the Item Code Description does not provide enough information.

Resolution: Add this report to your Sales Order Custom Report Menu and save yourself time. There are parameters for entering the Order Types and Product Lines to include on the report.

Installation: Once your payment is processed, the report template is sent to you via email. Your product lines must be added as values for the Product Line parameter field. You may elect to install the template yourself or the staff at Conner Ash P.C. will be happy to assist you for a small additional charge.

Customization: Additional customization is available at our current hourly rate.

Contact: To place an order or if you need additional information, please contact either Suzanne Watson or Sue Deters at (314) 205-2510.

Open Orders By Item
